PROFILE

Strategic Lead Product Manager with 10+ years of experience and a track record of generating over **USD \$10M** in revenue across Logistics and Fintech. Expert in **"0 to 1" product development and scaling through AI-driven automation**.

Currently leading teams of 25+ in different teams to integrate AI agents, new functionalities, and predictive models into core operations, resulting in a 10% reduction in costs.

Strong background in data-driven decision-making (SQL, Power BI), roadmap prioritization (RICE), and aligning technical delivery with company OKRs.

STRENGTHS

AI-Driven Product Strategy:	Expert at identifying high-impact AI/ML use cases to automate complex workflows and reduce operational costs.
Strategic Roadmap Management:	Skilled at aligning product vision with company OKRs, ensuring scalable growth and on-time delivery across multiple teams.
Advanced Data Leadership:	Proficient in using SQL and Power BI to build predictive models and dashboards that drive data-backed decision-making.
Product Discovery & Innovation:	Deep experience in Design Thinking and Lean Startup to move from "0 to 1," building MVPs that solve real market pain points
Cross-Functional Leadership:	Strong ability to lead large, diverse teams (25+ members), including Developers, Data Scientists, and Designers in high-pressure environments.
End-to-End Product Lifecycle:	Expert in the entire journey from deep user research and PRD creation to successful market launch and post-launch optimization.

PROFESSIONAL EXPERIENCE

CodeRoad Inc (Better Trucks) Lead Product Manager

November 2024 – Present
Remote

Better Trucks is a last-mile logistics leader specializing in supply chain management.

Roles & Responsibilities

- **Team Leadership:** Manage 3 cross-functional teams (25+ people), including Engineering and Data, translating complex business needs into high-velocity development cycles.
- **AI Innovation:** Leading the strategy and deployment of AI agents and automation flows, streamlining internal logistics operations, and eliminating manual bottlenecks.
- **Strategic Roadmap:** Own the end-to-end product journey, prioritizing high-value initiatives to ensure on-time delivery and alignment with global business goals.
- **Discovery & MVP:** Execute rapid discovery cycles to launch MVPs, allowing the business to validate solutions and pivot based on real-time market feedback.

Key Achievements:

- **Reduced operational costs by 10%** through the implementation of AI-driven automation.
- Iterated over 10 times on product enhancements within 90 days, significantly increasing driver engagement.
- Integrated predictive alert features that use AI to identify potential delivery delays before they happen, allowing the ops team to intervene early and maintain a 98% on-time rate.

Team International (Arrive Logistics) Senior Product Manager

November 2021 - October 2024
Remote

Arrive Logistics is a top-tier US logistics and supply chain firm.

Roles & Responsibilities

- **Product Vision:** Managed the roadmap for web and mobile apps focused on workflow optimization and real-time tracking for 3K+ users.
- **AI-Enhanced Data:** Integrated predictive data features to provide real-time pricing insights, empowering users to negotiate more profitable market rates.
- **Agile Execution:** Led sprint planning, grooming, and daily standups, ensuring features met business goals under strict deadlines.

Key Achievements:

- Increased profit by **3% per load** (over **\$20k USD/day**) by launching a new data-driven commission program.
- Developed the first mobile app MVP, significantly accelerating the feedback loop for core logistics features.
- Launched 5+ features that reduced operational costs by 5% and simplified the load creation process.

Colombian Fintech specializing in secure ID and digital card solutions.

- Roles & Responsibilities
- **0-1 Launch:** Led the company's first digital product (Vecard) from concept to scaling, defining the entire product department's structure.
 - **Data Culture:** Created the company's first Data Team and built Power BI dashboards to drive a Data-Driven culture.
- Key Achievements:
- Launched **Vecard**, generating **\$150k USD in revenue** in the first year.
 - Developed **Card as a Service (CaaS)**, onboarding 11 clients and generating **\$150k USD/month**.

- **Product Automation:** Led development for smart safe solutions (Compusafe), integrating software and hardware for real-time cash management.
- **Strategic Partnerships:** Created a daily credit model with Bancolombia, facilitating the movement of \$500M COP/day.
- **Key Achievement:** Successfully sold 500+ SaaS units in 2018 across retail and manufacturing sectors.

- **Operational Efficiency:** Developed and led a **Lean Program** from ideation to implementation, resulting in a 7% reduction in core operating costs.
- **Financial Modeling:** Created **profitability models** at the product, customer, and city levels to drive data-backed business growth.
- **Revenue Strategy:** Optimized cash flow analysis, identifying a **15% increase** in revenue opportunities and business growth alignment.

TECHNICAL SKILLS

AI & Automation:	AI Agent Development (Claude code and cowork), LLM Implementation (Claude, Gemini), Prompt Engineering, Automated Workflow Design (Low-code/No-code).
Product Management:	Agile (Scrum, Kanban), Roadmap Planning, Stakeholder Management, ROI Analysis, PRD & Feature Specs, RICE Prioritization.
Data Analytics:	Power BI, Tableau, Google Analytics, Pendo, Revenue & Financial Modeling.
